The Director of Central Intelligence has asked me to reply to your letter of January 28, 1971 regarding the captioned case.

Compliance with the request of IBM attorneys that we supply documents describing the organization and function of the various offices, branches, etc. within the Agency involved in the management, procurement, use, evaluation, selection, transfer or disposal of any data processing product or service will present special problems in the case of this agency. Most of the requested information is classified in the interest of national security.
